CHRISTIAN ROMÁN

SENIOR SOFTWARE ENGINEER | SOFTWARE ARCHITECTURE & FULL-STACK ENGINEERING

Spain · Remote opportunities | linkedin.com/in/crromano | zbotpath@gmail.com | +34 631 26 11 07

PROFILE

Senior Software Engineer with 10+ years of experience designing and modernizing enterprise applications. Progressed from systems administration and full-stack development into frontend architecture and technical leadership. Focused on scalable, maintainable systems and pragmatic engineering decisions.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer · VIEWNEXT | May 2024 – Present

- Led frontend architecture decisions and Angular 14–20 migrations for enterprise banking applications, advancing microfrontend modernization.
- Improved performance, security and maintainability through refactoring, vulnerability remediation and technical debt reduction; guided code reviews, mentoring and deployments.

Senior Frontend Engineer · Dimática / Hotelbeds | Jun 2023 – May 2024

- Built and optimized high-traffic hotel search, filtering and booking experiences using Angular, supporting thousands of concurrent users.
- Delivered complex, pixel-accurate interfaces and resolved frontend performance and reliability issues.

Full-Stack Engineer · Métrica Consulting | Oct 2021 – Jul 2023

- Delivered enterprise banking features with Angular and Symfony, including APIs, third-party integrations and automated testing.

Full-Stack Engineer · TRM Software | Mar 2021 – Oct 2021

- Architected and delivered ERP and comparison platforms end to end, owning system design, databases, infrastructure, CI/CD and key technical decisions.

Full-Stack Developer · C2 Intelligent Solutions | May 2018 – Mar 2021

- Built web and mobile products for major brands, including real-time applications, indoor positioning and high-traffic e-commerce; designed APIs and authentication. (Vichy Catalán, CIRSA, Stanhome, Royal Canin, Laboratorios KIN …)

Full-Stack Engineer / DevOps · Wolfcrass Software Solutions | Mar 2017 – May 2018

- Built Django-based web and commerce applications, APPs and managed AWS infrastructure, CI/CD and deployments from scratch.

CORE EXPERTISE

Architecture: System Design · Microfrontends · Modular Architecture · SOLID · DDD · API Design

Engineering: Angular · TypeScript · PHP · Symfony · Laravel · Python · Django · Automated Testing · CI/CD · AWS

Leadership: Technical Decision-Making · Code Reviews · Mentoring · Engineering Standards

EDUCATION

Higher Technician in Network Systems Administration (ASIR) · IES Fco. Romero Vargas | 2015–2017

Technician in Microcomputer Systems and Networks (SMR) · IES Doñana | 2012–2014

LANGUAGES

Spanish: Native · English: B2
